26/27 School Evacuation and Reunification Information

We will continue to utilize our school safety plan as in past years. Our reunification destination would only be utilized in the event that faculty and students have to evacuate the school property and cannot return (gas leak, fire or etc.).

Law enforcement and school personnel decided that the best location for reunification with students and their families is at the property of Hannah Meyer. This address is 20642 Highway AA, Marshall. This is located approximately ¼ mile south from the school and is situated on the left hand side of the road, if you are traveling towards Sappington Cemetery from the school on Highway AA.

If property evacuation were ever necessary, you would most likely be notified by a school official, and you would be directed to the Meyer property to be united with your child (ren). However, in the event that communication is not available, please be aware of the plan, in case the school were deemed inaccessible.

The administration and staff will visit with students periodically so that they may be prepared in an emergency situation that requires property evacuation. We will continue to educate our students on how to properly cross 41 Highway and we will have several staff acting as crossing guards to ensure student's safety.

Administration will continue working in conjunction with the Saline County Sheriff's Department to keep the staff and students educated and our efforts coordinated.

Please call the school if you have any questions at 660-837-3400

Sincerely,

Hardeman Administration

Kristy Forrester & Hadley Sims
